ePrescribing Resource

Is your practice receiving CMS incentive dollars for ePrescribing? For complete information, please go to http://www.cms.hhs.gov/ERxIncentive/06_E-Prescribing_Measure.asp#TopOfPage

Turn the Paper Off

"RHIO Integration with our EMR system saves us \$500-\$600 quarterly on paper alone. We also save a lot of time previously spent on searching for papers. Our providers' results are routed directly to their inbox which allows them to triage appropriately; and when our providers are teaching out of the country they have remote access to all of the records. This type of access allows the physicians to spend more time at home with their families and less time in the office chasing papers."

*Joe Giorgione, Practice Manager
Rochester Brain & Spine
www.rochesterbrainandspine.com*

Are you ready to turn off the faxed and mailed results to your office?
Contact the Rochester RHIO (877-865-RHIO).

Heal NY 5 Projects – Mid Point

Heal NY 5.1

- The RHIO will add a Patient Portal this Fall! Patients can indicate consent and request an audit online through the Patient Portal.
- Two ambulance squads will soon test an electronic pre-hospital care document.
- RHIO technical staff is working with several EHR vendors to build RHIO Interfaces for physician practices. The RHIO has live interfaces with eClinical Works, Medent and HST. We are making good progress with STI, Sage, McKesson, Allscripts, NexGen and Greenway.
- Rochester RHIO is testing the CCS Document (Community Care Summary), which will incorporate data from elder care services. The CCS will benefit patients by giving providers access to community services provided, such as nutrition, home safety evaluation and other home care services.
- RHIO stakeholders are exploring and analyzing how the RHIO could support connectivity with consumers PHRs.

Heal NY 5.3

- Westside Community Health Center is LIVE with their EHR.
- Jordan Health Center is LIVE with their EHR.
- URMC is LIVE with an interface to the NYS Immunization Registry.
- The MCMS HIT Service Bureau has recruited 225 physicians in 75 practices for EHR adoption services and grant support.
- RecoveryNet will begin their implementation phase in the next quarter.

August's Numbers

- 11 hospitals and 3 imaging centers in the greater Rochester area provide lab results, radiology reports and images, and transcribed reports to the RHIO health information exchange.
- 1500 authorized users access their patients' clinical data through the RHIO.
- 1.2 million clinical documents are added to the health information exchange each month.
